

PIX

POWER-WRAP

Classical and Wedge Vee Belts

www.pixeuro.com

Features & Benefits

- “FREE SET” stringent length tolerance guaranteed
- Belt Characteristics ensure high performance in heavy-duty, continuous running applications
- POLYCHLOROPRENE Wrap for fire resistance in event of slippage
- FRAS Belts approved by R.J.B. (British Coal Board)
- EXTENSIVE RANGE available from 250mm to 160078mm
- High PERFORMANCE/PRICE ratio
- Manufacturing to ISO 9002 and QS-9000 Standard

ISO 9002 & QS-9000

PIX **EUROPE**
LIMITED
BELTS & HOSES

PIX Profile:

PIX is the world's fastest growing Belts & Hose company, supplying their products to over 40 countries worldwide.

This multinational company is ISO 9002 and QS-9000 certified with quality ranking among the best in the world. With an emphasis on innovation and technology, PIX also counts some of the largest OEMs among its millions of satisfied customers worldwide.

The exceptionally good quality is complemented with the most extensive range of products and backed with service of the highest standard.

PIX has now established its European operations to increase its accessibility to customers, and enhance its service offerings in this part of the world. The European subsidiary is responsible for Sales, Marketing, Support, and Warehousing of all PIX products. In addition to Belts and Hose, PIX Europe also stock a host of other products including, pulleys, chains, couplings, etc. In a nutshell, PIX Europe looks upon itself as a one-stop shop for quality power transmissions products.

Applications

Used in general engineering and agricultural machinery drives from light duty rotary pumps to heavy duty crushers. Typical applications include Machine tools, Textile machines, Printing machines, Agriculture and Horticultural machinery, Paper making machines, Pumps, Mixers, Blowers, Crushers, Fans, Generators, etc.

Range

Classical Belts

Belt Section	Top Width	Depth	Manufacturing Range
Z	10	6	10" - 195"
A	13	8	13" - 380"
B	17	11	16" - 658"
C	22	14	31" - 658"
D	32	19	45" - 662"
E	38	23	85" - 658"
20	20	12.5	975mm - 9525mm
25	25	16	1448mm - 16637mm

Wedge Belts

Belt Section	Top Width	Depth	Manufacturing Range
SPZ	10	8	365mm - 4953mm
SPA	13	10	576mm - 9246mm
SPB	17	14	940mm - 16764mm
SPC	22	18	1750mm - 16789mm

Narrow V-Belts

Belt Section	Top Width	Thickness	Manufacturing Range
3V	9.7	8	19" - 190"
5V	15.8	13.5	48" - 654"
8V	25.4	23	90" - 654"

Special Belts

PIX Fire Resistant Antistatic V-Belts (Marked FRAS)

Under certain conditions of temperature and humidity a V-Belt may generate a significant amount of static electricity. PIX V-Belts have normal fire resistance and anti-static properties. These properties are in accordance with requirements of BS-3790 and International Standard. For extreme cases PIX produce FRAS belts, these belts have special fire resistant and antistatic properties. These belts are used in an inflammable atmosphere where the fire hazard risk is high. PIX FRAS Belts have been approved by RJB Mining (British Coal Board).
