

Abrasives

Luna abrasives

A complete range of abrasives developed to cover all types of power tool usage. Manufactured to the highest quality levels for professional use in industry and the automotive sector.

Cut off discs for angle grinders

Cut off discs for cutting iron, steel and stainless steel as well as stone, brick, masonry, concrete and glazed tiles. The cut off discs for metal are iron free, i.e. they have a very low content of iron, chlorine and sulphur. Reinforced. Maximum peripheral speed of 80 m/s.

Stock No.	Usage	Diameter x Thickness x Hole mm	Maximum speed rpm	Price
201180106	metals	115 x 1.0 x 22	13,300	€3.00

201210200	brick/concrete	180 x 1.6 x 22	8,500	€9.60

Diamond cut off discs for angle grinders

Diamond cut off discs for dry and wet cutting of concrete, brick and stone. Gives a coarse cut. Sintered segments. Maximum peripheral speed of 80 m/s.

Stock No.	Diameter x Thickness x Hole mm	Segment height x width mm	Price
201460102	115 x 2.0 x 22	7.0 x 2.0	€19.20
201460201	125 x 2.1 x 22	7.0 x 2.1	€23.70
201460300	180 x 2.4 x 22	7.0 x 2.4	€41.60
201460409	230 x 2.5 x 22	7.0 x 2.5	€64.80

Turbo diamond cut off discs for angle grinders

Diamond cut off discs for dry and wet cutting of concrete, brick and stone. Sintered full tuck pointed rim, smooth main blade. Maximum peripheral speed of 80 m/s.

Stock No.	Diameter x Thickness x Hole mm	Segment height x width mm	Price
201480100	115 x 2.1 x 22	7.0 x 2.1	€23.10
201480209	125 x 2.1 x 22	7.0 x 2.1	€26.60
201480308	180 x 2.5 x 22	7.0 x 2.5	€43.30
201480407	230 x 2.5 x 22	7.0 x 2.6	€68.10

Ceram diamond cut off discs for angle grinders

Diamond cut off discs for dry and wet cutting glazed tiles and ceramic. Sintered completely flat rim gives a very fine sectional area. Maximum peripheral speed of 80 m/s.

Stock No.	Diameter x Thickness x Hole mm	Segment height x width mm	Price
201470101	115 x 1.8 x 22	5.0 x 1.8	€18.40
201470200	125 x 1.8 x 22	5.0 x 1.8	€21.60
201470305	180 x 1.8 x 25.4/22	5.0 x 1.8	€35.80

Polishing sponges

Polishing sponges with a Velcro back. Used with a back up pad.

Stock No	Attachment	Diameter mm	Price
201120102	Velcro	125	€28.40

Polishing hats

Polishing hats with a choice of a Velcro back or a pull cord. Used with a back up pad.

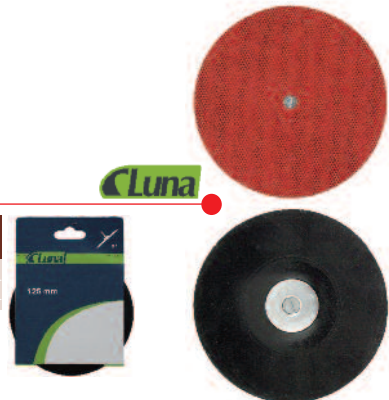

Stock No.	Attachment	Diameter mm	Price
201110103	velcro	125	€9.30
201110202	cord	125	€9.30

Back up pads

Support cups for abrasive discs and polishing hats. 6mm spindle

Stock No.	Type	Diameter mm	Price
211040100	rubber	125	€14.50
211040209	velcro	125	€19.40

Abrasives

Back up pads

Support cups for fibre discs. With M14 female thread for direct attachment to the machine spindle.

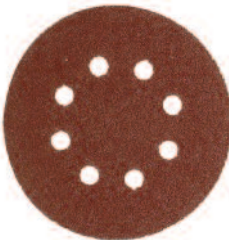

Stock No.	Diameter mm	Hole thread	Price
211050109	125	M14	€17.50
211050208	125	M14	€23.70

Velcro backed sand paper discs

Velcro backed 125mm diameter sand paper discs for wood, paint and metal.

Abrasive nylon multi purpose brushes

Multi purpose brushing tools filled with abrasive nylon. Suitable for deburring highly profiled parts without damaging component surfaces. During use, new abrasive grits are continually exposed to give continuous optimum abrasive performance.

Stock No.	Type	Diameter mm	Shank diameter	MSFS rpm	Price
6002919009	Wheel brushes	50	1/4" (6mm)	4500	€6.30
6004919009	Wheel brushes	75	1/4" (6mm)	4500	€7.80
6008919009	Cup brushes	50	1/4" (6mm)	4500	€8.10

4523343008	280	125	23	black steel wire	0.35mm straight	4 rows	12	€3.40

Lubricants

Luna lubricants

A wide selection of oils, greases and lubrication products developed specifically to compliment the range of machines and tools found in this catalogue. The range includes air tool oils, compressor oils, hydraulic oils, universal spays and degreasers, greases, thread and cutting paste and cutting fluids with a variety of pack sizes and types to suit most requirements

Metal working fluid

The cutting fluid gives a stable, lubricating emulsion with good corrosion protection and good capacity to separate leakage. Designed for use in most types of general cutting and grinding operations on high and low alloy steel, aluminium and copper.

Stock no		155500101	155500200
Viscosity at 40°C	mm ² /s	88	88
Capacity	l	3	5
Pack		Can	Can
Price		€37.30	€60.10

Lubricants

Hydraulic oil

"Bio" hydraulic oil is environmentally adapted hydraulic oil, for use in both mobile and stationary hydraulics. The primary characteristics of the base liquid are a high degree of saturation, high viscosity index and high biological degradability. This give technical advantages in the form of very good rust resistance and good low temperature characteristics.

Stock no	155440100	155440209
Viscosity at 40°C	mm ² /s 46	46
Viscosity at 100°C	mm ² /s 9.2	9.2
Viscosity index	190	190
Capacity	l 5	10
Pack	Can	Can
Price	€57.00	€107.40

Hydraulic oil that has been developed and designed for the extremes of climate and is recommended as an all round oil. The oil has a broad application and can be used in numerous precision demanding applications within industry, contract work and marine. The oil has a high viscosity index at the temperature range from -40°C up to 90°C. The product contains zinc free additives, which is more environmentally friendly.

Stock no	155410103	155410202
Viscosity at 40°C	mm ² /s 27.5	27.5
Viscosity at 100°C	mm ² /s 9.7	9.7
Viscosity at -40°C	mm ² /s 1350	1350
Viscosity index	368	368
Capacity	l 5	10
Pack	Can	Can
Price	€43.60	€80.60

A highly advanced hydraulic oil for cutting edge hydraulics which work under varying temperature conditions. Filter related problems are avoided when using the oil and operating reliability is good.

Stock no	155420102	155420201
Viscosity at 40°C	mm ² /s 29	29
Viscosity at 100°C	mm ² /s 6.1	6.1
Viscosity index	165	165
Capacity	l 5	10
Pack	Can	Can
Price	€32.30	€57.80

A highly advanced hydraulic oil for cutting edge hydraulics which work under varying temperature conditions. Filter related problems are avoided when using the oil and operating reliability is good.

Stock no	155430101	155430200
Viscosity at 40°C	mm ² /s 42.1	42.1
Viscosity at 100°C	mm ² /s 7.6	7.6
Viscosity index	149	149
Capacity	l 5	5
Can	Can	Can
Price	€32.10	€57.50

All prices exclude VAT and are subject to availability

Compressor oil

This compressor oil is recommended for all types of stationary and mobile engines and marine diesels used for coastal shipping, but can also be used with hydraulic systems, screw compressors, converters, etc where a single grade engine oil is required.

Stock no	155320104	155320203
Viscosity at 40°C	mm ² /s 98	98
Viscosity at 100°C	mm ² /s 10.5	10.5
Capacity	l 1	3
Pack	Can	Can
Price	€8.30	€21.80

This compressor oil is recommended for all types of stationary reciprocating compressors. The oil is based on highly refined mineral oil with additives against rust, corrosion and foaming.

Stock no	155340102	155340201
Viscosity at 40°C	mm ² /s 100.3	100.3
Viscosity at 100°C	mm ² /s 9.8	9.8
Viscosity index	69	69
Capacity	l 1	5
Pack	Can	Can
Price	€9.30	€38.90

Air Tool oil

This air tool oil is a white oil, based on mineral oil without any additives. The oil can be used as an air and mist lubrication oil for rotating tools where requirements on optimal cleanliness are essential. The oil is refined for use such as a softening agent within the chemical engineering industry. The oil is odourless and does not discolour.

Stock no	155300106	155300205
Viscosity at 40°C	mm ² /s 15.0	15.0
Viscosity at 100°C	mm ² /s 3.4	3.4
Viscosity index	34.0	34.0
Capacity	l 1	3
Pack	Can	Can
Price	€9.00	€24.20

Pneumatic tool oil gives an improved working environment and gives minimum wear to the lubrications systems components, compared with conventional air tool oil. Also recommended for industrial and some mobile hydraulic applications. The oil is recommended within the temperature range -25° C to 70° C

Stock no	155310105	155310204	155310303
Viscosity at 40°C	mm ² /s 22	22	22
Viscosity at 100°C	mm ² /s 4.2	4.2	4.2
Viscosity index	80	80	80
Capacity	l 1	3	5
Pack	Can	Can	Can
Price	€10.90	€29.90	€46.90

Grease

A multi purpose grease which is recommended for both smaller, lightly loaded and larger, heavily loaded plain and roller bearings and where a grease gun of type lithium soap is required. The product is recommended within the temperature range -30°C to +120°C. Universal grease with very good corrosion resistance, good water resistance and mechanical stability

Stock no	155560105	155560204	155560303	155560402
Viscosity at 40°C	mm ² /s 200	200	200	200
Viscosity at 100°C	mm ² /s 16	16	16	16
Contents	225g	400g	1kg	18kg
Pack	Tube	Cartridge	Tin	Bucket
Price	€6.40	€4.40	€11.70	€156.50

Lubricants

Multi purpose grease "Bio" is an environmentally adapted grease with very good mechanical stability. Recommended as a universal grease within industry and civil engineering. It is suitable for most grease applications, eg the lubrication of small, lightly loaded as well as large, heavily loaded plain and roller bearings.

Also recommended within the temperature range -30°C to + 140°C

Stock no	155570104	155570203	155570302	155570401
Viscosity at 40°C	mm²/s 295	295	295	295
Viscosity at 100°C	mm²/s 36	36	36	36
Contents	225g	400g	500g	18kg
Pack	Tube	Cartridge	Tin	Bucket
Price	€10.90	€13.90	€40.10	€590.00

Multi purpose grease with excellent mechanical stability and water resistance, recommended for lubrication of chassis, civil engineering, agricultural and forestry machines. The grease is especially suitable when extended lubrication intervals are a practical necessity. The grease is also suitable for marine equipment in docks and deck equipment on board ships where condensation and water are common.

Stock no	155590102	155590201	155590300	155590409
Viscosity at 40°C	mm²/s 870	870	870	870
Contents	225	400	1kg	18kg
Pack	Tube	Cartridge	Tin	Bucket
Price	€7.20	€7.40	€17.20	€243.00

The product is a multi purpose grease for applications where the lubricant must withstand high temperatures and loads over long periods, the grease also has good water resistance. It is recommended for vehicles and industrial use, for both smaller, lightly loaded and larger, heavily loaded plain and roller bearings.

Stock no	155580103	155580202
Viscosity at 40°C	mm²/s 200	200
Contents	400g	18kg
Pack	Cartridge	Bucket
Price	€5.60	€208.00

Paste

Thread and cutting paste is a vegetable semi solid grease with very good lubricating characteristics. The product is designed for metal working at low cutting speeds eg tapping and drilling. The product can ideally be used as a threading paste for applications where you choose to use an environmentally friendly option.

Stock no	155550106
Contents	500g
Pack	Tin
Price	€23.10

Metal working fluid

"Bio" cutting fluid has been developed to give an optimal working environment with a minimum tool wear. A transparent cutting fluid bio of a micro emulsion type for use as a lubricant and coolant for general cutting operations eg turning, milling, drilling, cutting, thread cutting, grinding of materials such as cast iron, steel, stainless steel, yellow metals and aluminium alloys.

Stock no	155510100	155510209
Viscosity at 40°C	mm²/s 490	490
Viscosity at 100°C	mm²/s 150	150
